

About Us

Encompass Testing is a boutique business delivering pragmatic and proactive software testing services to organisations throughout Australia.

Our aim is to assist you in delivering high quality software through collaborative testing.

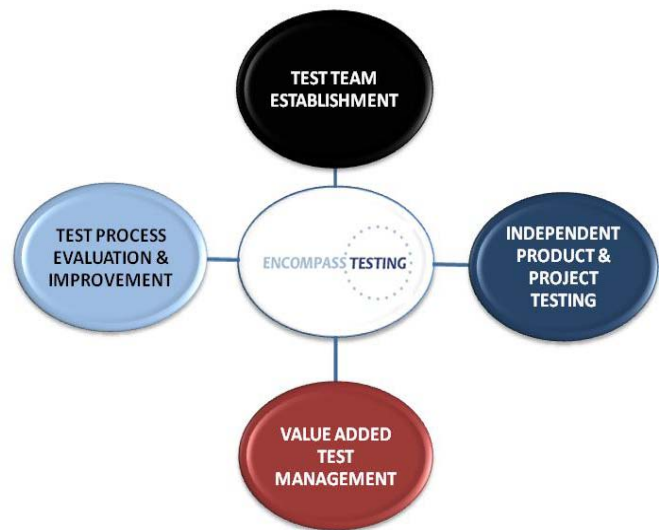

What we do

We provide four key services:

- Test team establishment
- Independent product and project testing
- Value added test management
- Test process evaluation and improvement

Why we are different

- We are collaborative
- We are based in Australia
- We are highly skilled practitioners
- We are passionate about software testing
- We provide a tailored approach
- We are people focused
- We provide tailored reporting
- We are vendor neutral

If you are going to engage experts, engage them early.
